

WORLD WATER DAY

in 1993 the United Nations declared March 22nd World Water Day. The day is used to advocate for the sustainable freshwater resources. Join us for a rally on WWD, 11am @ Victoria Park. All are welcome as we protest the taking of First Nations Water by bottling companies. Wear BLUE to help make the rally a living river as it flows to Harris Park for a water ceremony and prayers. More information as the event comes closer. For more information go to:
